

System Requirements

1. A user must be able to log in using an email and password. [The other team takes care of this function]
2. When logged in, a user must be able to see a main menu with options like:
 - Deliveries
 - Log out
 - Owner: Marcos
3. A user must be able to see current deliveries and filter them. For the deliveries he will see the next information:
 - Departure location
 - Departure time
 - Arrival location
 - ETA
 - Status
 - Owners: Iñaki and Diego
4. A user can select a delivery to see more detailed information about it such as:
 - Total distance (km)
 - Cargo
 - Quantity
 - Fee
 - Company
 - Driver
 - Vehicle
 - Owners: Emir and Serife
5. When seeing extended information, the user has an option to also see the route in a map. [The map rendering is developed by the other team, so we need to collaborate with them in order to implement this function] – Owner: Vasile
6. A user must be able to log out the app without closing it. Owner: Elena
